

OAKLAND NURSERIES

5 Easy Steps Toward A Beautiful Lawn

In just 5 easy steps, Oakland Premium Products give you professional results without having to pay for professional lawn care.

Each of the lawn care products in the five step program is specially formulated to deliver beautiful results season after season. Carefully follow the enclosed steps listed on the inside. Pay particular attention to weather and climate conditions that could affect your application timing.

***PERFORMANCE GUARANTEE:**

If for any reason you are not satisfied with the results of this quality product, return the bag with proof of purchase for a full refund.

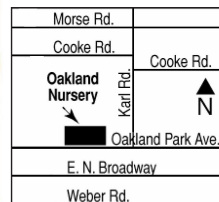

About  **OAKLAND NURSERIES**

Oakland Nursery was founded in 1940 on Maize Pike in Columbus, Ohio. The nursery was relocated in 1950 by its founder, Gustav Reiner, to its current location on Oakland Park Avenue.

In 1990, Oakland opened another retail complex in the city of Delaware and in 2005, a complex in the city of Dublin. The Columbus, Delaware and Dublin retail complexes combined make the meaning of the motto "23 Acres of Gardening Pleasure" a reality.

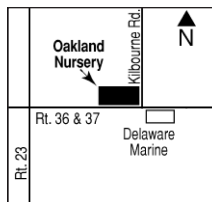

Today, Oakland Nursery is a diversified company that not only sells horticultural products, but designs and installs living landscapes. We offer retail delivery, plant installation, irrigation installation, and interiorscape services in our quest of being a total horticultural entity.
